

OVER 200 COAL MINERS ENTOMBED ALIVE BY GAS EXPLOSION

MEXICAN CRISIS CENTERING ON ISSUE BETWEEN TWO BRANCHES OF ACTIVITY

Two Distinct Branches of Activity Are Manifest in Situation at Washington

ENVOYS SPEND BUSY DAY

Envoys Work on Plan of Adjustment While U.S. Military and Naval Forces Prepare for War

CABINET IN LONG SESSION

WASHINGTON, April 28.—The Mexican crisis is now centering on the issue between those who are seeking through the good offices and intermediation of Latin-America to find some middle ground for pacific adjustment and those who regard a resort to arms as an inevitable consequence of what has occurred.

Throughout today two distinct branches of activity were manifest here—that of the envoys of Argentina, Brazil and Chile in formulating a plan of adjustment to be submitted to the United States and the Huerta regime and that of the military and naval forces of the United States which are in preparation for any eventuality which may develop. Arrival of General Funston and a brigade of 5000 troops at Vera Cruz was one of the notable military developments of the day. Chief interest was directed to the sessions of the South American envoys lasting through the day and late into the evening. The meetings were held at the Argentine legation, where seated about a long mahogany table the three envoys deliberated much as an international court would weigh a case of supreme importance pending its decision. At the white house, President Wilson and his cabinet advisers held a lengthy meeting, devoted chiefly, however, to the Colorado situation although the Mexican crisis continued in the foreground. A spirit of optimism over the progress of the negotiations was distinctly apparent in legislative quarters. While the mediators are not ready to announce their plans or even to indicate when a proposal might be complete for presentation to the two parties yet it became known that probably three or four days or even a longer time, might elapse before they would be ready to take their next step.

Secretary Bryan was called upon by ambassadors and ministers of Europe as well as South American countries. Among the visitors was the French ambassador, M. Jusserand, who expressed the warm sympathy of his country in the cause of mediation.

To Further Cause of Peace. With the exception of the three South American countries no power has taken any official action, although the European diplomats are doing their utmost to further the cause of peace.

Sir Cecil Spring-Rice, the British ambassador, also was one of Secretary Bryan's callers, his purpose being to report the results of the interview held yesterday in the Mexican capital by Sir Lionel Carden, the British minister, with General Huerta. Sir Lionel strongly impressed upon the general the opinion of his own government that he should promptly accept the good offices tendered by the three South American republics. Ministers Nason and Sauer of Argentina and Chile talked at length with Mr. Bryan late in the day. Ambassador Da Gama had seen the secretary earlier. These conferences are of a wholly informal character chiefly to obtain the viewpoint of the American government. The three peace-makers are proceeding slowly and carefully gathering all the information possible from various American and Mexican sources to the end of considering every element in the controversy. They are careful to make a distinction between their present exercise of good offices and what may come later if the good offices advance to the stage of mediation. They take the view that their work is one of far-reaching effect not only in the present controversy but as affecting a continued peace of the western hemisphere through the united efforts of American nations north, south and central. The Argentine legation where the sessions are being held is in the fashionable residence section of the capital, far removed from the departments which have recently been the scene of so much warlike preparation.

There has been no formal organization as an international body with chairman and other officers, except that as the meetings are held at the Argentine legation, Dr. Nason, the Argentine minister is piloting the way. Dr. Nason is a diplomat of wide experience, an international lawyer who at one time held the chair of constitutional in the University of Argentina, a formal member of the

Argentine cabinet and of congress and prominently mentioned as a candidate for president. The Brazilian ambassador, Senor Da Gama, is by reason of his rank, the senior member of the body. He also is a trained diplomat, a product of the younger school of Brazilian statesmanship and one who is highly regarded by Dr. Lauro Muller, Brazilian minister of foreign affairs who recently visited this country. The Chilean envoy Senor Suarez brings to the meetings the advantage of a long and thorough acquaintance with Mexican affairs, as he was for some years Chilean minister at Mexico City. The sessions of the mediators are being conducted in strict privacy and no announcements are being made on the various stages of progress. Later on it is expected that if the situation warrants an official statement will be issued. But this is not likely while the attitude of the two sides is being weighed and an effort made to compose the serious point of the disagreement. Thus far it is understood neither side has submitted formal conditions nor has either side been approached as to concessions which might be made, the present discussion being a general survey of the field, and conferences with the best informed men on both sides to develop some avenue of approach toward a satisfactory middle-ground.

Reports circulated during the day that one of the plans being considered contemplated a provisional commission form of government in Mexico. This was not confirmed by those acquainted with the work of the envoys and it was stated in their behalf that this and other reports likely to be circulated could be set down as entirely speculative in the present stage of the negotiations or as calculated to embarrass their efforts.

Another report which was discussed widely was the possibility that three intermediaries might visit Mexico City to talk with General Huerta face to face. It is known that the envoys have not yet completed their plans but the long interval that would elapse in their trip and the difficulties that might arise in leaving their official duties here it is realized would considerably affect such a plan. General Funston found awaiting him at Vera Cruz today this order:

"Acting in compliance with instructions received from the president, the secretary of war directs that on your arrival at Vera Cruz Mexico, with your command, you relieve the navy of its duties ashore and take command of the occupation and control of Vera Cruz, Mexico, and environs. The secretary of war is explicitly requested by the president to say to you that the president entirely approves in every respect of the course which Admiral Fletcher has pursued in the occupation, control and management of the city of Vera Cruz since his landing; that he has the greatest confidence in Admiral Fletcher's judgment, has learned to depend upon his long acquaintance with the situation there for guidance, and desires that you keep in close touch and consultation with the admiral and seek to continue in intimate harmony with him the policy he has initiated there except so far as changes of circumstances may demand a different course."

"Orders are to be issued by the president through the navy department detaching the marine corps contingent at Vera Cruz for service with the army, the effect of which orders will be to place the marine corps contingent so detached under your command."

Control Wireless Station. Vera Cruz, April 28.—The Mexican wireless station here, the largest along the coast, but having only medium power, was taken over by the navy wireless officers today. Lieut. Charles H. Maddox, of the battleship Utah was placed in charge.

This station will form an important link in the ship and shore chain of wireless stations along the coast. Wireless reports from along the coast last night said everything was quiet. The battleship Arkansas picked up messages from the Denver off Mazatlan, on the west coast, early today. Their nature was not disclosed.

Vanguard of Rebel Forces OCCUPY PIEDRAS NEGRAS

Constitutionalist Chief Announces He Will Hoist American Flag and Fire Salute to Show Friendship.

Eagle Pass, Texas, April 28.—The vanguard of the rebel forces late today occupied Piedras Negras. General Guajardo, the federal commander whose forces were defeated at Allende and who was wounded in the battle, died last night near the Rio Grande as he was being brought to the American side.

General Murguia, the constitutionalist chief, with the main body of his command and three hundred federal prisoners, is expected to arrive early tomorrow. He announced that he would hoist an American flag and fire a salute to the United States. The advance

JOHN D. JR., DEFENDS HIS POSITION IN MINE STRIKE IN COLORADO

Statement Made to Correct Inaccurate Accounts of Interview with Dr. Foster

UNIONIZING ONLY ISSUE

Declares Company Had Voluntarily Granted All Points Long Before Strike Was Called

FEDERAL TROOPS CALLED OUT

Colorado Strike Situation

FEDERAL TROOPS ORDERED to the strike districts at Canon City and Trinidad to restore order by proclamation of President Wilson. Time of departure, midnight from Fort D. A. Russell, from Fort Leavenworth, Kans., uncertain.

FIGHTING RESUMED at the Walsh mine on the outskirts of Walsenburg. Sheriff Jefferson Farr reports about 300 strikers around the mine and appeals to Governor Ammons for more troops. Two killed and three wounded in fighting at McNally and Walsen mines since the first attack yesterday.

GENERAL JOHN CHASE reaches the Boulder county coal fields with 120 militiamen and is attacked at Louisville by strikers.

ONE STRIKEBREAKER known to be dead and two reported wounded in fighting at Becla mine in Boulder county.

CITIZENS OF BOULDER, Larimer and Weld counties organize and volunteer for service in northern Colorado coal district. Expeditions planned tonight to guard several of the most important mines. Boulder volunteers leave for Marshall and Superior.

APPROXIMATELY 300 militiamen stationed at Ladlow, fifteen miles north of Trinidad with several hundred armed strikers encamped in the new tent colony on the outskirts of that city.

NUMEROUS CONFERENCES at the governor's office. Members of the legislature called to meet in special session May 4th, begin arriving.

NEW YORK, April 28.—John D. Rockefeller, Jr., tonight issued a statement defining the position, he, as director of the Colorado Fuel & Iron company, had taken in regard to the mine strike now in progress in that state which has cost the lives of many men, women and children and caused large property loss.

The statement was prepared by Mr. Rockefeller and his personal attorney, Starr J. Murphy, and the reason for it is given because of inaccurate accounts in the press regarding Mr. Rockefeller's interview with Dr. Foster, chairman of the committee on mines and mining. The statement follows in part:

"In that interview, at which Mr. Starr J. Murphy, one of the directors of the Colorado Fuel & Iron company was present, we pointed out to Dr. Foster that of the many coal companies in southern Colorado we were interested solely and as minority stockholders in the Colorado Fuel & Iron company, which controls only about one-third of the output of that state. After a long and full discussion of the question in all its aspects, Dr. Foster was unable to make any suggestion which did not involve the unionizing of the mines or the submission of that question to arbitration. We stated to him that if the employees of the Colorado Fuel & Iron company had any grievances we felt sure that the officers of the company would be willing to make every effort to adjust them satisfactorily. We showed the doctor that all of the points which are claimed to be at issue with the exception of unionizing the camps, the Colorado Fuel & Iron company had voluntarily granted to its employees long before the strike was called or talked of."

"These points are: First, the eight-hour day. Second, semi-monthly pay. Third, check weighing. Fourth, company stores. Fifth, wages."

Is Matter of Principle. "In addition to the above, the only matter which has been raised by the union is the unionizing of the company's camp. On this question of the open shop, namely, the right of every American citizen to work on terms satisfactory to himself without securing the consent of the union I reiterated to Dr. Foster

WAR BULLETINS

Takes Charge of Mexican Prison

WASHINGTON, April 28.—Admiral Fletcher telegraphed the navy department today that he had taken charge of San Juan D'Ulloa prison at Vera Cruz on account of the frightful conditions discovered there. He said that 325 prisoners who had not been accused of any misdemeanor or crime whatever, arrested within the last two months in order to force them into the federal army, were confined in the prison. Admiral Fletcher recommended that these be immediately released and Secretary Daniels so ordered today by telegraph. There were confined in addition 43 persons sentenced for crime and 75 awaiting trial.

These will be held pending further investigation of their cases by the American authorities.

Smallpox Discovered Aboard Cyclops

GALVESTON, Tex., April 28.—Smallpox was discovered on the Collier Cyclops today after about half of the three hundred and sixty American refugees brought here by the Collier had been held.

While refugees on the Cyclops were passing down the gangway the ship's doctor observed a negro who was developing smallpox. Immediately the landing of the refugees was halted and most of those who had left the ship were vaccinated back. All on board were vaccinated and then permitted to depart. Hereafter all refugees brought to this port will be vaccinated.

Refugee Trains Take Different Routes

VERA CRUZ, April 28.—So much of the railroad track north of Tejeria has now been destroyed by Mexican troops that President Huerta today gave orders that in future all trains bearing refugees be directed to the coast at Coahuacoalco, about 125 miles southeast of Vera Cruz. The trains will leave the Mexican railroad line at Cordoba, go south over the Vera Cruz and Pacific line to the connection with the Tehuantepec railroad and thence proceed to the gulf coast.

Majority of Wounded Are Improving

WASHINGTON, April 28.—Marked improvement in the condition of most of the wounded bluejackets and marines at Vera Cruz was reported late today by Rear-Admiral Badger. The report said James W. Wrenn, marine private, had been restored to duty.

President Wilson today issued an order directing that all the marine hospitals and quarantine stations of the government care for the sick and wounded.

Vera Cruz Takes on Usual Appearance

VERA CRUZ, Apr. 28.—With the natives enjoying the freedom of the streets of the city after half past seven o'clock tonight for the first time since the landing of the American forces, Vera Cruz took on something like its usual placid appearance. Under a proclamation issued by Rear-Admiral Fletcher the bluejackets patrols on the street ceased halting Mexicans and the natives moved about the Alameda and other centers, taking an unusual interest in the foreign colony.

Eighty-Four Army Officers Graduated

LEAVENWORTH, Kas. Apr. 28.—With brief exercises eighty-four officers today were graduated from the army service school and tonight most of them are on their way to join their regiments. A majority of the graduates go to the Mexican border. Among the five honor graduates is O. P. Robinson, twenty-first infantry who was formerly a reported on the St. Louis Globe-Democrat and who served first in the Fourth Illinois Volunteer Infantry.

Mexican Paper Makes Great Capture

EL PASO, April 28.—A copy of the Mexico newspaper El Imparcial received here today tells of the "capture" of El Paso by the combined forces of General Velasco, the federal leader and General Villa.

The story under date of last Thursday says that the Americans were surprised and overwhelmed and that Villa and Velasco established headquarters in the leading hotel. Negotiations ensued says the inspired story, as a result of which the frightened Americans ceded the southern half of the city back to Mexico.

Deny that Relations Are Strained

CHIHUAHUA, April 28.—Via El Paso, Texas, April 28.—At revolutionary headquarters here today, denial was made that relations between General Villa and Carranza were strained, in proof of which a friendly telegram from Villa at Juarez to Carranza was exhibited.

The railroad from Monterey to Tampico is being repaired and the defeat of a federal force at Santa Catarina, south of Monterey is reported. The rebels captured 300,000 cartridges, 250 rifles and one field piece, according to the report. Federal loss is given as 200 including General Enrique Perez and the rebel loss sixteen.

SENATE COMMITTEE WILL BALLOT TODAY ON FOUR PROPOSALS

Any One of Proposals Will Lay Question of Tolls Repeal Before the Senate

MAY START LONG DEBATE

Action Along Any of Lines Contemplated May Start Debate in Senate that May Last Weeks

DEVELOPMENTS SURPRISE

TUESDAY IN CONGRESS.

House.

Met at noon.

Debate resumed on naval appropriation bill.

(Ways and means committee postponed until December consideration of anti-tobacco coupon bill.)

Judiciary committee continued consideration of anti-trust bill.

Public lands committee reported Church authorizing leasing of lands in California.

Agriculture continued legislation on future trading in futures.

Mines committee heard William Green, secretary-treasurer of United Mine Workers of America advocating Taylor bill to create additional experimental stations.

Without completing naval appropriation bill adjourned at 6 p. m., to noon Wednesday.

Senate.

Met at noon.

Passed LaFollette resolution calling on inter-state commerce commission for all communications in the rate increases cases.

Considered bill to increase limit of postal savings bank deposits.

Adjourned at 5:20 p. m., to noon Wednesday.

WASHINGTON, April 28.—After a two hour discussion today on the house bill to repeal the free tolls provision of the Panama canal act the senate committee prepared to vote tomorrow on four proposals each of which would operate to lay the question of repeal before the senate.

The committee may decide:

To report the bill without recommendation; to report it with an amendment proposed by Senator Simmons which would declare that by passing the repeal bill the United States would waive no rights possessed under the Hay-pauncefote treaty or otherwise.

To report it with another amendment proposed by Senator Shields declaring that the bill's passage should be held to be a concession by the United States that it has not the right to exempt its coastwise shipping from toll payment.

Report a substitute proposed by Senator Walsh which would afford any foreign nation an opportunity to try the matter before the United States supreme court.

Action along any of these lines would bring the bill before the senate and insure the beginning of a debate which probably would last several weeks.

At the conclusion of the session today there was little talk among members of a serious effort to keep the bill in committee and it seemed practically certain some sort of a report would be ordered at tomorrow's session.

Both factions in the committee were surprised by the day's developments. The fact that Senator Simmons, who is credited with handling the fight for President Wilson, proposed an amendment, was taken by opposition senators to indicate that the president is not expected to insist upon a report without modification. This position the president has been understood to have held since the beginning of the fight.

Senators supporting the president, however, were surprised at the proposal by Senator Walsh. This was a solution suggested by former President Taft at the time he signed the Panama canal act. Some senators thought that it was an indication that some sort of a report could not be avoided and that the opposition to repeal may line up behind the Walsh substitute.

Although the committee was said to be quite evenly divided predictions tonight favored a report on the Walsh measure.

200 MINERS ARE ENTOMBED IN BURNING MINES AS RESULT OF EXPLOSION OF GAS

BODY IDENTIFIED AS THAT OF REV. LOUIS PATMOUNT

Body of Temperance Worker Who Disappeared During Campaign at Westville is Found at Cleveland.

Cleveland, O., Apr. 28.—The body exhumed from the Rockport cemetery, near here today, was identified as that of Rev. Louis Patmount, formerly of Milwaukee, who disappeared from Westville, Illinois on April 1st. The identification was made by a brother Oscar Patmount, who lives in Canton, Ohio.

The body of Rev. Patmount was found alongside the Big Four railway tracks southwest of the city on April 6th. The coroner decided that a murder had been committed, probably on a freight train and that the body was then thrown from a car. The identity of the dead man remained unestablished and after several days the body was buried.

Prior to his disappearance, Rev. Patmount had been holding a revival meeting in Westville. An option campaign was then being waged and it is said that he was driven from town by partisans.

Whether the killing of the minister took place at Westville, or here, is the question upon which local and Westville police are now working. Rev. Patmount's body was exhumed today at the request of Oscar Patmount. It will be taken to Canton for burial.

ROOSEVELT DISCOVERS TRIBE OF SAVAGES HITHERTO UNKNOWN

Expedition Explores Course of River Gyrana and Discovers Unclothed Savages Named Pautates.

Rio Janeiro, April 28.—Colonel Theodore Roosevelt during his journey through the unexplored regions of Brazil discovered a tribe of savages hitherto unknown. The tribesmen, who were named Pautates, were completely unclothed.

Captain Amilcar Magalhães, chief of the Brazilian mission accompanying Colonel Roosevelt, who relates this discovery to the Gazette de Noticias today says the party had some stirring adventures. Colonel Roosevelt himself killed two tiger cats, each considerably over three feet in length. The expedition explored and traced the course of the river Gyrana, a tributary of the Madeira.

The captain declares that in the accident on the Gyrana on March 13th, when one of the boats capsized, only the baggage was lost. The sketches made by the party floated and were saved. The boat's crew of seven men rescued themselves by clinging to branches of trees.

The total baggage collected amounts to about 2,000 specimens.

MAYOR HANCE AND DRUGGIST OF NEWMAN NGAGE IN BATTLE

DANVILLE, Ill., April 28.—Following an argument over alleged illegal imprisonment of two citizens on a gambling charge, Alex Hance, mayor of Newman, Ill., a little town south of here, at 1:35 this afternoon, shot Ed Calvin, druggist, through the arm. Returning the fire, Calvin wounded H. E. Smart of Decatur whom the mayor used as a shield. Eli Williams, railroad conductor, was seriously wounded by wild shots fired through the depot windows, near the scene. The mayor was locked up and early this evening there was strong talk of mob violence.

AUSTRIAN TRAMP STEAMER AGROUND ON NEW JERSEY COAST

NEW YORK, April 28.—The Austrian Tramp Steamship Federica Cienfuegos, Cuba to this city, with 5,000 tons of sugar went aground on the New Jersey coast off Harvey's Cedars today and her Captain, A. T. Sutter and crew of twenty-six were in peril tonight. Combats were in progress against her while life-savers were unable to launch their boats, or to shoot lines out to the steamer. The United States Revenue Cutter Mohawk left here to go to the Federica's aid.

Seenes generally attending such disasters were lacking. Relations of the miners convinced there is little hope for the recovery alive of their loved ones, sought their homes early in the night.

Four miners are known to be dead, fifty nine were rescued, many of them severely burned and 203 others are entombed in two burning mines and are believed to have small chance for their lives as the result of an explosion of gas in Mines No. 5 and No. 6 of the New River Colliery company here at 2:30 o'clock this afternoon. The dead and rescued men were taken from Mine No. 6 and it is said all but thirteen of the miners who entered the shaft early today have been accounted for. One hundred and ninety of the entombed men are in shaft No. 5 not a man having escaped from this operation since the explosion. The mine is burning fiercely with government, state and volunteer rescuers working desperately tonight to subdue the flames.

The depth of the two main shafts is six hundred feet and the mines are two other shafts into the mines but the explosion totally wrecked three out of the four. The lone entrance leads into Mine No. 6 and

BIG ATHLETIC MEET FRIDAY

EVERYTHING IN READINESS
FOR ANNUAL CONTEST.

Western Illinois High School League
Meet Promises to Draw Large
Crowd to City.—Declaration Con-
test in Morning and Athletic
Events in Afternoon.—List of
Entries.

Everything is in readiness for the
sixteenth annual meet of the West-
ern Illinois High School league
which will be held here Friday. The
declaration contest will take place
in the Opera House at 9:30 a. m.
and the athletic events will start at
1:30 sharp on Illinois college field.
The meet promises to be one of
the fastest ever witnessed in the
city. The contest which Jackson-
ville had with Beardstown and
Springfield and the meet recently
pulled off at Griggsville, in which
a number of schools which will take
part in the W. I. H. S. L. meet will
participate, with the fast records
made, gives a hint at what the spec-
tators can expect to witness Friday
afternoon. From all reports there
will be a large attendance as a
number of friends always take ad-
vantage of the day to come to Jack-
sonville.

There are three teams which loom
up strong at present for the honors
in the athletic meet. White Hall,
Jacksonville and Beardstown. In
the recent meet at Griggsville, only
one point separated the record be-
tween White Hall and Beardstown.
Jacksonville was a winner in the
tri-city meet with Beardstown and
Springfield, so there you have the
dope.

There will be a big fight in the 50
and 100 yard dashes between Knight
of Beardstown, Campbell of White
Hall and Killbrow of Jacksonville.
This same fight will be carried to
the 220 yard dash, with Ernest Rey-
nolds of Jacksonville, Strawn of
Ashland, Campbell of White Hall
and Crum of Beardstown.

The mile run promises to be a
hard fought one between Garvin of
Pittsfield, Vertrees of White Hall
and Carter of Jacksonville. The
quarter mile race between Treadway
of Virginia, Hembrough of Jackson-
ville, Strawn of Ashland, Roodhouse
of White Hall will be tight.

Sutherland of Jacksonville looks good
to annex the hammer throw and
ought to hold Dickens of Beard-
stown close in the shot put. Kinser
of White Hall looks a sure winner
in the high jump. The youngster
crosses the bar in the 5 ft. 9 in.
class, which is college jumping.
From dope it appears that 32 or 33
points will win the meet.

The Illinois track is in the best
condition possible and there ought
to be a number of records broken.
The following entries have been
received by Coach Harmon:

ber of Commerce at Urania Odd
Fellow Hall—William B. McKin-
ley Among the Speakers.

Committees have been appointed
to have charge of a reception for
all the business men of Jacksonville
and their friends next Tuesday eve-
ning at Odd Fellows’ hall on West
State street and all signs point to-
ward a most successful event. The
reception will be informal in nature
and addresses will be made by
men of importance, including
Mr. McKinley of the Illinois Trac-
tion System, and Benjamin Gage
and Walter J. Haymer of the Chi-
cago Association of Commerce.

The gathering is announced for
8 o’clock and will be free through-
out.

**MORGAN COUNTY ASSOCIATION
PLANS FIRST CHICKEN FRY.**

Plans for the first annual chicken
fry were made by the members of
the Morgan County Poultry associa-
tion at their regular monthly meet-
ing Tuesday evening in the Illinois
Telephone company rooms. The
event will take place some time in
August.

It was decided to hire a judge to
assist D. T. Heimlich in the poultry
show this year and I. A. Engle of
Latham, Ill., was named for this
purpose. J. W. Clary presided at
this meeting. James C. Weber acted
as secretary.

It was decided to adjourn until
the fourth Tuesday in September.

NINETY-FIFTH ANNIVERSARY OF I. O. O. F. LODGE OBSERVED

Appropriate Exercises Held by Mur-
rayville Lodge Last Night—J. H.
Dial in Role of Toastmaster.

Appropriate exercises marked the
observation of the 95th anniversary
of the founding of the Odd Fellows
lodge by the local Murrayville I. O.
O. F. organization, Tuesday evening.

It was one of the best gatherings
in the history of the Murrayville
lodge and the large attendance,
splendid course dinner served, and
toasts, all added a touch of interest
to the gathering. The dinner was
served, between speeches, and the
tables were nicely decorated in pink
and green, the Rebekah colors and
pink and green candles were used
for lights. The committee on ar-
rangements from the Rebekah lodge
was Mrs. Mabel Walker, Miss Mil-
dred Wright and Miss Dorothy Ten-
dick; from the Odd Fellows, W. B.
Wright, John T. Warecup and Harry
Gunn. Miss Edna Ramsey was
head waitress and those who assisted
her were Misses Marie Angelo,
Fawnie Wilson, Edna Cook, Lulu
Coulas, Sarah Jones, Golden Blake-
man, Gladys Osborne and Mildred
Wright.

J. H. Dial was introduced as
toastmaster and he filled the position
in a creditable manner, his in-
troduction of the speakers being
made with an abundance of wit and
humor.

The program follows:
Quartet, “When I Dream of C.
Erin, I’m Dreaming of You”—
Mrs. W. W. Walker, Mildred Wright,
Harry Gunn and T. G. Beadles.
“Odd Fellowship, What It Taught
Me”—J. E. Wyatt.

Fellowship—Mrs. Lou Rimby.
First course of banquet.
Solo, “I Wish You’d Keep out of
my dreams”—Mrs. Ruth Fuller.
“Common Errors of Life—
and How Rebekahs Can Avoid Them”—
Mrs. C. T. Daniels.
“The Golden Rule and the way
Rebekahs Can Apply It”—Mrs.
Mary A. Gunn.

Second course of banquet.
“Who are we and what are we
doing?”—C. T. Daniels.
“Odd Fellowship, What It Should
Teach Me”—Rev. C. S. McCullough.
Third course of banquet.
Reading “The Elopement”—Mrs.
Arthur Seymour.

Quartet, “Always take a girl nam-
ed, Daisy.”
“To Odd Fellowship”—Mrs. Ella
Kyle.

**SEEK DAMAGES FROM
BANK DIRECTORS.**

Hartford, Conn., April 28.—The
directors of the Windsor Locks
Savings bank, which failed in 1912
with large liabilities, are the de-
fendants in a damage suit which
came up for trial in the superior
court today. The suit was brought
by the state bank commissioners to
recover \$390,000 damages and is
based on the alleged liability of the
directors for the defalcation of the
late A. W. Converse, who was
treasurer of the bank.

cludes Lana Oil Soap, Gray’s Talcum and other leading brands.

The Real Economy

We have specialized in offering quality goods in bulk in
our grocery department, many of the lines in bulk, but handled
in our high class sanitary way which insures the quality and
gives the lower price levels. We are finding out daily too that
customers appreciate the service we are giving them, a service
which gives “the best and the most for the least money.”
Real economy in buying comes only when the store patron finds
that he is not only saving money but that he is securing goods
of staple quality. We are able to meet this requirement because
we use an intelligence, based on long experience in buying. When
we do our buying we have our customers continually in mind and
their interests are our interests. The double service, in grocery
and drug departments, which this store affords is another reason
for the satisfactory service which is afforded our patrons.

FUNERALS

Rogers.

The remains of Mrs. Mary Rogers were taken to Waverly Tuesday morning at 7 o'clock via the Burlington. Funeral services were held in the Congregational church there at 9 o'clock in charge of Dr. R. O. Post of this city and Rev. Mr. Holp, pastor of the Waverly Congregational church. The services were attended by a large number of relatives and friends. Music was furnished by William Turnbull, Frank Curtis, Miss Parkin and Mrs. Jennie Curtis, with Mrs. Maggie Tietgen as organist. The flowers were cared for by Mrs. A. C. Moffat, Mrs. Minnie Barrows, Miss Nannie Bryan and Mrs. Charles Lowe.

Interment was made in the Waverly cemetery and the bearers were Joseph Lombard, J. N. B. Rohrer, Frank Reesor, A. C. Moffat, J. C. Deatherage and George L. Kimber.

Among those from Jacksonville who attended the services were Mrs. John R. Davis, Mrs. Harry Hall, Miss Anna Bronson, Miss Bessie Harrison, Mrs. Charles Parks, Mr. and Mrs. W. B. Rogers and family, H. J. Rodgers, Mrs. Rantz and son, Francis, Mr. and Mrs. Joseph Ainsworth, Miss Ella Goldsmith and Mrs. May Simmons.

Stockton.

Funeral services for Mrs. Keziah Stockton were held at her late residence in Litchberry Sunday afternoon, April 26, at 2 o'clock, and were attended by a large gathering of relatives and friends. Rev. C. E. French, pastor of the Christian church, basing his sermon on that passage from Scripture, "She hath done what she could." In the course of his remarks he said: "When our friend's life ebbed away our ministrations ceased. What followed was a memorial of her, and as Mary anointed Christ before His death, so should we do any little kindness or favor for our friend's while they live, or carry flowers to them, and not wait to heap them on the grave when the form is cold in death."

The music was furnished by the choir of the Christian church of Litchberry and there was a large number of beautiful flowers, among them a pillow with the word "Mother," a large wreath of pink carnations, one of Easter lilies, one of cut flowers from the family, a spray of crimson roses by a grandson, Lee Smith and family; a Boston fern by the Oak Ridge Sunday school; a potted Easter lily from Misses Hattie and Nellie Jumper and a large spray of Easter lilies from her only surviving sister, Mrs. Ruth Rathburne of Dixon, Ill., who was unable to attend. These were cared for by Mrs. Daniel Ward, Miss Mabel Johnson and Miss Augusta Wassner.

Interment was made in Yatesville cemetery and the bearers were John Lockhart, Henry Lamkular, Thomas Ward, John J. Newell and George J. Naulty.

VERA CRUZ, April 28.—An unconfirmed report was received here today to the effect that six Americans had been taken from the jail at Cordoba and killed and also that another American had been put to death at Cosamaloapan, a town about sixty miles south of Vera Cruz.

Neither Rear-Admiral Fletcher nor Consul Canada had what they regarded conclusive information as to the execution of the Americans but they are investigating the report.

NORMAN JONES ELECTED TO OFFICE OF CIRCUIT JUDGE

Carrollton Man Wins in Judicial Contest by Margin of Four Thousand—Total Vote Throughout District is Light.

In the special election held Tuesday to choose a successor for Judge Owen P. Thompson who resigned to become a member of the state utilities commission, Norman L. Jones, Democrat, of Carrollton, was elected. Mr. Jones plurality was about 4,000 and he carried the counties of Macoupin, Morgan, Jersey and Greene, Charles S. Andrus of Springfield, Republican, carried Sangamon and Scott counties. W. A. Orr of Springfield, Progressive was a poor third and Edward Wieck, Socialist, polled a still lighter vote.

In Greene county Mr. Jones had well nigh unanimous support receiving 2125 votes as against 195 for Mr. Andrus. Mr. Jones plurality in Jersey county was about 600, in Macoupin county 1100, in Morgan county 628. The estimated plurality for Mr. Andrus in Sangamon county was 100 and in Scott county, 125.

The total vote cast in Morgan county Tuesday in the judicial election was 2820. Of this number Norman Jones, the successful candidate received 1692; Charles Andrus, 1064; W. A. Orr, 59 and Edward Wieck, 14. A light vote was expected but the total was even less than counted on, indicating that only about one third of the voters of the county went to the polls. AMERICAN REFUGEES FROM MEXICO ARRIVE AT NEW ORLEANS

About 700 Refugees Are Now at Quarantine 100 Miles Down Mississippi River.

New Orleans, April 28.—Approximately 700 American refugees from Mexico have arrived at quarantine, 100 miles down the Mississippi from New Orleans. They are awaiting expiration of the government health authorities' limit of six days from port so they may proceed to New Orleans.

The ships reported at quarantine today were the Jason Mexico, City of Mexico and the Livingston. Thirteen refugees were taken off the Livingston and the vessel allowed to proceed because of a perishable cargo. The other vessels are held there.

The government is preparing to take care of 2,000 refugees during the time they are held at quarantine. A river steamer chartered by the government left here tonight at 6 o'clock bearing supplies. Immigration authorities here have instructions to care for those without funds after they land at New Orleans. All those who so desire will be sent to their homes at government expense.

JOHN ADE DIES SUDDENLY.

The National Drink

The days of Spring remind one that there is nothing more invigorating, nothing more health giving than

Welch's Grape Juice

It is nothing but the real, pure juice of the finest Concord grapes grown. No sugar or sweetening is added. A few hours after the grapes leave the vines, they are washed, rinsed, stemmed, pressed and the juice is placed in hermetically sealed glass. It is a really health giving drink.

We Are Now Manufacturing Fertilizers For Soil

We have made a careful study of soil conditions and are now putting up an article which is considered the best on the market for INCREASED YIELD OF Corn or Oats. The same has the following analysis:

Bone phosphate 63.09 per cent.
Phosphoric acid 28.90 per cent.
Nitrogen 2.53 per cent.
Ammonia 3.07 per cent.

If you will carefully compare the analysis of our ROYAL BRAND BONE MEAL, you will find that the same is cheaper than the use of Rock Phosphate or any other fertilizers which are now on the market.

It only requires from 100 to 150 pounds of our BONE MEAL to an acre of soil, depending upon the condition of the soil.

This will increase your yield of corn or oats from 19 to 29 bushels to the acre for the first year.

MR. CHARLETON EXPLAINS ST. LOUIS TIME CARD CHANGE

Passenger Traffic Manager of the Alton Shows That Inconvenience Will Be Slight—Economy of Operation Is Basis of Plan.

The announcement that the Chicago & Alton's new time card which is to go into effect next Sunday will make service changes which will lessen the advantage of travel between Jacksonville and St. Louis has been the occasion of the exchange of a number of letters between the Chamber of Commerce and officials of the railroad.

The original plan of the road it seems was to take off one train each way between Jacksonville and St. Louis during the summer season at least. Now the plan is to have the early morning train run to Godfrey only and there after a fifteen minute wait connect with the train from Springfield. Returning it would be necessary to leave St. Louis 26 minutes later than is now the case and arriving at Godfrey the car would be switched to a train for Jacksonville.

A letter written Monday by Geo. J. Charlton, passenger traffic manager of the Alton and a reply from Secretary Fritchey of the Chamber of Commerce make clear the issue involved.

Chicago, April 27, 1914.
Mr. Paul B. Fritchey,
Secy. Chamber of Commerce,
Jacksonville, Illinois.

Dear Mr. Fritchey:
Your letter April 25th reached me this morning and our president, Mr. Bied, referred to me at the same time your telegram same date to him on the same subject.

It has been necessary in the interest of economy, on account of the exceptional decrease in passenger and freight earnings on this railway, to make a considerable reduction in expenses in all directions. Not only has that been necessary on this railway but you will notice by the newspapers pretty generally on all railways throughout the country, and particularly in the central and middle west, in which our line is located.

When we came to consider our summer schedule the proposition in connection with train reductions in all directions was to discontinue one train each way a day between Jacksonville, Roodhouse and St. Louis, it being thought that on account of the greatly decreased earnings we could get along very nicely with two trains a day in each direction instead of three trains. With a view of helping the situation as much as possible, in the interest of the smaller number of people who were traveling as compared with last year, I suggested that we might be able to hold onto the three trains in each direction by clubbing 31 and 47 at Godfrey into St. Louis and 48 and 30 out of St. Louis. That would save us the mileage of trains 30 and 31 between Godfrey and St. Louis, the terminal expenses over the bridge and the terminal tracks, which would nearly equalize the saving of one entire train in each direction between Roodhouse and St. Louis, and that I think you will agree with me is a much better proposition than depriving you of the third train in each direction between Jacksonville, Roodhouse and St. Louis.

On the new card train 31 leave Jacksonville at 6:40 a. m., reaches Godfrey at 9:10 a. m. and delivers a through car to train 47, reaching St. Louis 10:45 a. m. No. 48 leaving St. Louis at 5:00 p. m. handles a through car to Godfrey which is delivered to train 30 at that point at 6:20 p. m. and reaches Jacksonville at 8:40 p. m. There is no change of cars en route between Jacksonville and St. Louis in either direction, simply a little later arrival by fifteen minutes in St. Louis in the morning, a little earlier leaving hour by twenty-six minutes in the evening. When business conditions are restored and the traffic will warrant it we perhaps may make some other arrangement which will be more satisfactory than the proposed arrangement, but I think you will agree with me that under the circumstances we have rounded out the situation very nicely, particularly in connection with preserving the present train service on the Jacksonville-Roodhouse-St. Louis line.

Sincerely yours,
George J. Charlton,
Passenger Traffic Manager.

April 28th, 1914.
Mr. Geo. J. Charlton, Gen. Pass. Agt.
Chicago & Alton R. R.
Chicago, Illinois.

Dear Mr. Charlton:
I am pleased to acknowledge receipt of your letter of the 27th inst. explaining your reason for your railroad time-table changes which are to go into effect May 1st.

This subject has been given much consideration by our Transportation Committee and they still have some objections to offer. We understand that there are from three to four times more passengers carried on this train than is carried on the Springfield train. As was well expressed by one of our members, it looks as if the tail is wagging the dog. We can understand your position for desiring economy in the operation of your trains but believe we should be given the primary right for the St. Louis accommodations. Why not put the Springfield coach on the Jacksonville train? We will appreciate whatever your company will do for us.

I am sending you an illustrated booklet published by our organization. If your road can use any of them for judicious distribution in your railway stations, we would be glad to supply you with same.

Very truly yours,
Paul B. Fritchey,
Secretary.

NATIONAL GUARD CONTINUES TO PREPARE FOR POSSIBLE CALL

Regular Members of Co. B, Will Drill Twice Weekly.—Recruits to Have Instruction Every Night, Beginning Thursday.

Although the Mexican war cloud which has hung over the country for the past several days has lost some of its darkness, preparations for possible service have by no means lessened, as far as the Illinois National Guard is concerned and every day witnesses something more done in order that the militiamen shall answer promptly in case a call shall come.

Detailed orders, naming Springfield as the place for mobilization of the Illinois National Guard in event of war, have been received by Adj. Gen. Frank S. Dickinson from Secretary of War Garrison. Copies of the orders are to be sent to all state militia companies and regiments.

Co. B, in command of Capt. L. P. Owen, is to have two drills weekly for an indefinite period. The second drill this week will be held Thursday night and arrangements will be made so that new enlistments can be taken care of and recruits given instruction each night during the week. This will be started Friday night. A commissioned officer of the company will be present at the hall each night and in this manner it is expected to advance recruits rapidly so that they will be prepared to join the regular drills in a short time.

Capt. Owen has received the following letter from Col. Frank S. Wood:

"Reports received from Company commanders show commendable team work, in that recruiting is progressing very favorably.

"Company commanders must improve every opportunity to have their recruits drilled frequently as possible, and as much of the preliminary work of organization disposed of as can possibly be done, and that in a correct and precise manner.

"Your records should be carefully gone over, that there may be no cause of friction or delay in our mobilization camp.

"Preparedness is our watchword. Every company commander should know where he can go to get his mules, wagon and equipment for same.

"Every mounted officer, and non-commissioned officer should have an option on his horse and equipment. There must be no cause for delay, due to any neglect on our part, when Governor Dunne issues his call."

SOCIAL EVENTS.

The sixty-fourth birthday of J. W. Bowen was the occasion of a pleasant surprise Tuesday evening at the hands of a number of friends. The company met at the home of Mr. and Mrs. H. S. Rayborn on Grove street and went in a body to Mr. Bowen's home, 403 Lincoln avenue where a social evening was spent with games and music. A birthday cake had been prepared by Mrs. Clarence Massey, a daughter of the host and hostess, and this was cut at an appropriate time and search made for the customary tokens. The time was found by Mrs. Harry Cobb and the needle by Mrs. Rayborn while the button became the property of Mrs. Asa Robinson.

The East Side Tuesday club met yesterday with Mrs. J. Marshall Miller, 770 West North street. It was guest day and a large number of members and friends were in attendance. The decorations consisted of spring flowers and following the business session Mrs. Mary Turner Carriel delighted the guests with a story of her visit to Basil, where her son, Rev. Arthur Carriel is head of a school. Her narration was most instructive and heard with marked attention by every one. Mrs. Carriel was presented with a beautiful bouquet of pink carnations, the club flower. Mrs. George Hocking acting as spokesman. Part of the program consisted of a duet by Miss Myrtle Larimore and Mrs. Edgar Martin.

The young ladies' Sunday school class of Westminster church, taught by Mrs. Nellie Gunn, was entertained last night by Miss Vera Mork at the home of Mr. and Mrs. George Moore on Grove street. Music and a good time socially was the program. Miss Mork, who is a student at Illinois college, expects to return to her home in Salt Lake City after June.

Among those present were Mr. and Mrs. George Wilmet, Mr. and Mrs. Henry Kamm, Mr. and Mrs. George Moore, Misses Margaret Moore, Beulah Ennis, Mary Daniels, Ruth Miller, Bessie Hadden, Vera Mork, Eleanor Ironmonger, Virginia Gunn, Viola Ironmonger, Grace Hadden, Mrs. Nellie Gunn.

D. O. K. K. CEREMONIAL.

Big Event Will Take Place This Evening in Castle Hall.

The members of the D. O. K. K. are planning a big time at their ceremonial this evening. This will perhaps be the last ceremonial held before the fall season. Fifteen or more candidates will be initiated into the order and from reports there will be an unusually large attendance. Supper will be served at 6:30 o'clock.

SPOKE AT VIRGINIA.

Mrs. Myrtle Tandy has returned from Virginia, Ill., where she participated in the celebration of the 95th anniversary of the founding of the I. O. O. F. lodge. A splendid program was given and Mrs. Tandy was heard in an address, also Judge Martin of Virginia. Music was part of the entertainment.

MARTIN BROS.

DENIES NEW TRIAL.

Chicago, April 28.—Federal Judge Geiger today denied a motion for a new trial for John F. Jelke, wealthy oleomargarine manufacturer and seven of his assistants convicted of conspiring to defraud the government of the ten percent tax on colored oleomargarine. Judge Geiger said he would pronounce sentence next Monday. Each of the men is liable to a term of two years in prison, a fine of \$10,000, or both.

Car or Super-Car

That is the chief question men have to decide in buying a car to keep.

It overshadows everything else.

Almost any car is fit for normal service. There are very few cars which won't demonstrate well, or even run well for a season.

Then is it worth while to build or to buy a super-car like this Reo the Fifth?

Listen to our side of that question.

AFTER 27 YEARS

Mr. R. E. Olds, after 27 years of car building, says that all these extremes are essential. Not for normal conditions, not for one season service. But to meet shocks and strains—to withstand years of wear—to save troubles, repairs and upkeep, a car must be built like this. And no man in the world knows better about that than Mr. R. E. Olds.

WHAT WE REQUIRE

We have for years kept test cars on the road. Relays of drivers run them night and day at high speed on rough roads. After 10,000 miles of this reckless driving we take

the car apart and inspect it.

We require every part to endure that rough service. And every driving part, after 10,000 miles, must remain almost like new. Every formula, test and specification is based on these requirements.

To insure this, all steel is made to formula and each lot is analyzed twice. Gears are tested in a crushing machine for 75,000 pounds per tooth. Springs are tested for 100,000 vibrations. Engines are put to five radical tests, then taken apart and inspected.

Then we require a big margin of safety. All driving parts in this 35-horsepower car must meet the usual tests required for a 50-horsepower engine.

IT STAYS NEW.

The result is a car that stays new. It doesn't grow noisy, doesn't show wear and doesn't give trouble. After years of use, with proper care, the car will run like new. It has strength enough for shocks. It has power enough for hills. There is no clashing of gears to wreck the transmission. There are no flaws, no weaknesses. Every part has vast over-capacity. A car built like this will save the average user hundreds of dollars in repairs and upkeep.

ECZEMA COVERED ENTIRE SCALP

Spread to Body, Limbs, Back and Ears. If Scratched Would Bleed and Smart. Cuticura Soap and Ointment Completely Cured.

R. F. D. No. 2, Sunfield, Mich.—"I was troubled with eczema. It began with a sore on the top of the scalp, broke out as a pimple and grew larger until it was a large red spot with a crust or scab over it. This became larger finally covering the entire scalp and spread to different parts of the body, the limbs and back and in the ears. These sores grew larger gradually until some were as large as a quarter of a dollar. They would itch and if scratched they would bleed and smart. The clothing would irritate them at night when it was being removed causing them to itch and smart so I could not sleep. A watery fluid would run from them. My scalp became covered with a scale and when the hair was raised up it would raise this scale; the hair was coming out terribly. My scalp and body itched all the time.

"After using Cuticura Soap and Ointment with two applications I could notice a great difference. My way of using the Cuticura Soap and Ointment was to apply the Ointment to the sores and all over the scalp, then after I would wash the sores and scalp with the Soap. In a month's time I was completely cured." (Signed) Mrs. Bertha Underwood, Jan. 3, 1913.

Cuticura Soap 25c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address: Post-office, Cuticura, Dept. T, Boston.

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

MEDIATION VS. ACTION.

Chicago Tribune:

We do not know whether the proposition of mediation emanated from the South Americans or whether it was conceived in Mr. Bryan's peaceful brain. It is a representation from governments far more favorable to the American people than to the American people. It is a move of one thoroughly cognizant of the political aspect of our Mexican policy.

Should the mediation result in the recognition of Huerta and the establishment of a government in Mexico City recognized by Carranza, Villa, and Zapata; should a salute be fired at Tampico and compensation be paid for the destruction of American property and the taking of American lives, the Wilson policy will be justified—to those who believe in it.

To those who believe that the continued savagery of the hybrid Aztec-Indian-Spanish races has become insufferable, the president's action will seem a weak avoidance of the irresistible duty of humanization.

They realize that the brutality in Cuba was never worse than the present barbarity in Mexico.

The Tribune, which has so generally supported the policy of President Wilson, differs from him now.

It believes that he has at best postponed a surgical operation which must be performed later with much greater difficulty.

It believes that vigorous military action following the battle of Tampico would have already placed the marines and blue jackets beyond the first mountain passes, and that the army, following rapidly, would have been in Mexico City early in May.

Then the first stage of the regeneration of Mexico to civilization would have been finished almost without bloodshed. The military prestige thus acquired would have rendered much easier the final subjection of the bandit leaders, and the territory of Mexico might well have been organized within the year.

The president has acted otherwise. He has aroused the hatred of the Mexicans without arousing their apprehensions. He has destroyed forever friendly intercourse with that so-called government. He has stopped there.

Even if he patched up a peace with Huerta he will not bring back accord between the people. The break must come some day. It is hardly possible that it will come at a time so favorable to this nation as that offered last Monday.

If mediation does not result in a temporary settlement of Mexican warfare, it will be considered the crowning failure of Chautauqua Diplomacy.

PASSAVANT BENEFIT TEA

AT HOME OF MRS. CAPPS

The ladies of Westminster Presbyterian and Grace M. E. churches held a benefit tea for Passavant hospital Tuesday afternoon at the home of Mrs. J. G. Capps, 1918 West College avenue. In the course of the afternoon the company was favored by two selections by Miss Ainslie Moore accompanied by Miss Katherine Barr.

The hostesses for Westminster were Mrs. Ensley Moore, Mrs. L. H. Davis, Miss Hattie Phillips, Mrs. G. C. Guthrie, Mrs. William Self, Mrs. C. C. Reynolds, Mrs. Julia H. Holmes, Mrs. Thomas Brown and Mrs. J. G. Capps, chairman. The Grace church hostesses were Mrs. John R. Davis, chairman; Mrs. J. W. Lane, Mrs. T. J. Pitzer, Miss Ida Marsh, Mrs. J. M. Reeve, Mrs. Nelson McMurphy, Mrs. George E. Baxter, Mrs. Grant Graff and Miss Betty Mosley. The ladies who assisted in the dining room were Miss Mary Wadsworth, Miss Mary Case, Miss Lillian Davis, Claire Stevenson, Miss Martha Hayden and Miss Katherine Barr.

The rain for Tuesday, according to G. H. Hall, weather observer at Alexander, was .18 of an inch.

SNAKES.

By WALT MASON.

These sunny days bring forth the snakes from holes in quarries, cliffs and brakes. The gentle bullsnake, mild and meek, sets forth his proper prey to seek; of all good snakes he is the best, with high ambitions in his breast; he is the farmer's truest friend, because he daily puts an end to mice and other beasts which prey upon that farmer's crops and hay. He is most happy when he feasts on gophers and such measly beasts; and, being six or eight feet high, when stood on end, you can't deny that forty bullsnakes on a farm are bound to do the vermin harm. The bullsnake never hurts a thing; he doesn't bite, he doesn't sting, or wrap you in his slimy folds, and squeeze you till he busts all holds. As harmless as a babe of hay, he does his useful work all day, and when at night he goes to rest, he's killed off many a wretched pest.

And yet the farmers always take a chance to kill this grand old snake. They'll chase three miles or more to end the labors of their truest friend. They'll hobble forth from beds of pain to hack a bullsnake's form in twain, and leave him mangled, torn and raw—which shows there ought to be a law.

MISS HUNTINGTON TO BECOME MISTRESS OF MILLIONS

Will This Week Become the Bride of Vincent Astor—Bride Comes of Sturdy Stock and was Raised in Country.

New York, April 28.—Upon a tall fair haired girl of 20 years, raised in the country and loving it, knowing little of society but destined to know much more, the eyes of the fashionable world are centered just now. She is Helen Dinsmore Huntington, who this week is to become the bride of Vincent Astor, the head of the Astor family in America and master of a fortune of nearly \$100,000,000.

The bride-to-be of Mr. Astor presents a new perfection in type of the American society girl, having enjoyed the advantages of having been born and brought up on a country estate, as do the girls of the best English families. From childhood Miss Huntington has led an outdoor life. At 16 she was sent to a private school at Dobbs Ferry, not a great way from her home on the Hudson. After the first winter at school came instructive tours of Europe with her parents, two winter seasons in the city where the family lived at the Ritz-Carlton hotel, and sojourned at the country homes of friends and relatives during the summer, spring and autumn.

Miss Huntington came from a sturdy and athletic stock, and showed it as soon as she was able to run about. Her father, who was graduated from Yale in 1891, was tennis champion of his university, and before she was ten years old Miss Huntington began to take an interest in the tennis courts. She also, like most girls brought up at country homes, became proficient in swimming while scarcely more than a child, and before she went away to the finishing school she was able to sail a sloop and to operate any motor craft, whether slow or swift. Since then she has on several occasions held the steering wheel of one or the other of Mr. Astor's swift hydroplanes, tearing up or down the Hudson river to the delight of those on trains or along the shore who may have been spectators. In learning to drive her own automobile she was aided by Mr. Astor, who has a thorough knowledge of motor mechanism in all its branches.

The marriage next Thursday will unite two of New York's oldest and best known families. Miss Huntington's maternal grandfather was William B. Dinsmore, who died in 1888 in his 78th year, leaving a large fortune to his children. His estate at Staatsburg, extended over two thousand of the picturesque rolling acres and Rhinebeck. Eventually about five hundred acres of the estate came to Mrs. Huntington, who in the center of that property, overlooking the Hudson, Hopeland house, a large three story structure of red brick and sandstone of Elizabethan design, was erected a few years ago.

Vincent Astor represents the fifth generation from John Jacob Astor, the founder of the great Astor fortune. He was a student in Harvard university—where his father had been educated—when Col. Astor met his heroic and tragic death in the sinking of the Titanic in the spring of 1912. On November 15 of that year he celebrated his 21st birthday and came into complete possession of the Astor estate. He did not return to Harvard to complete his course, but decided to devote himself to the management of his properties. Since then, except for short periods when he has found recreation on board his steam yachts and power boats, or at the family country places, he has spent several hours each day in the offices of the Astor estate in West Twenty-sixth street.

Vincent Astor and his father were devoted, "more like chums than father and son," to use the words of a warm friend of each. It was logical, therefore, that he should follow in the footsteps of his father, who was appointed to numerous public and has made it a rule to attend such committee meetings, especially when details of important public celebrations or charitable movements have been involved.

Mr. Astor was born in the old homestead at Fifth avenue and Thirty-fourth street, five months before his grandfather died and his father became head of the house. He was so frail a baby that only unremitting care kept him alive. His health improved as he grew to manhood, though even in recent years he has had several severe spells of illness and has never enjoyed what might be termed rugged health. He normally looks more boyish than he is. He has his father's height but not his breadth of shoulders. He has several inches, and the father's strong will and determination shows only in the son's chin.

USE "TIZ" IF FEET ACHE, BURN, PUFF UP

Can't Beat "TIZ" for Sore, Tired, Sweaty, Calloused Feet or Corns.

You can be happy-footed just like me. Use "TIZ" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "TIZ" and only "TIZ" takes the pain and soreness out of corns, callouses and bunions.

As soon as you put your feet in a "TIZ" bath, you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "TIZ" is grand. "TIZ" instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, sweaty, smelly feet.

Get a 25-cent box of "TIZ" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more. —Adv.

Greatest Event in Woman's Life

All human experience looks back to motherhood as the wonder of wonders. The patience, the fortitude, the sublime faith during the period of expectancy are second only to the mother love bestowed upon the most helpless but most marvelous creation—a baby.

Women are quick to learn from each other those helpful agencies that aid to comfort, that conserve their nervous energy and yet are perfectly safe to use and among these they recommend "Mother's Friend."

It is entirely an external application designed to lubricate the broad, flat muscles and skin that protect the abdomen. It has been in favorable use for nearly half a century and is known to mothers in almost every settled community in the United States who highly recommend it. You will find it on sale in drug stores. "Mother's Friend" is utterly harmless, contains no deadening drugs and yet its influence in the skin and muscles beneath as also upon the network of nerves beneath the skin is very beneficial, very soothing and a wonderful help. The muscles expand naturally and are not subjected to the unnecessary surface strain and pain during a most trying period.

Get a bottle of "Mother's Friend" today at any drug store and write to us for our instructive little book to mothers. Address: Bradfield Regulator Co., 513 Lamar Bldg., Atlanta, Ga.

It should be remembered that what is said of "Mother's Friend" is the thought expressed by the thousands of women who have successfully used it and recommended it through two generations.

MISSIONARIES IN CHINA

APPEAL TO BETTER CLASS

Day of "Rice-Christian" is Rapidly Waning.—Average Missionary of Today More Practical Than Formerly.

Hankow, China, April 28.—The "rice-Christian", that type of Chinese convert which was easily won over to any creed so long as he was supported in idleness, has had his day, according to the American Episcopal Mission in this city. The missions of all denominations today are making their appeal to the better class.

There was a time when missionaries came to China with the idea that there was no time to lose in mustering the whole army of Chinese under Christian standards. To make "rice-Christians" was easy. For daily supplies of rice, millions of beggars and coolies could be induced to swear they were believers in anything. But that was not converting China.

There were, however, few missionaries of any denomination who worked so unwisely. In the present day such men have a hard time living in the mission community. It cannot be said that the man of fanatical enthusiasm has been entirely eliminated but the average type of missionary today is far more practical.

It is the idea of the Episcopal missionaries and their British associates to prepare Chinese to convert their own people. They point to the recent formation of the independent "Holy Catholic Church" in China, which is conducting its own affairs. This successful establishment of an "independent" church, the first in China, is the result of the system of education conducted jointly by the Church of England at home and in Canada, and the Episcopal Church of the United States.

In the matter of preaching, the Chinese themselves cannot be beaten. Phrases of prescribing virtues is the common stock-in-trade of most politicians. The politician knows by heart the best and longest passages of the Chinese classics, which abound in admonitions to certain virtues. To know the classics was the first requirement, under the Manchu rule, for eligibility to office.

The man who could repeat the greatest length of words from them was considered the greatest scholar and shown the greatest deference by the nation. He was of great advantage to the government because it was the fashion and the trick to embody extensive declarations of piety, often quoted verbatim from the sages, in the imperial edicts. If words were deeds China would be a splendidly righteous and well-governed country. But even those edicts, which appeared years ago abolishing such evils as slavery and footbinding have not yet been put into force, and continue even under the republic.

From the theological school of over ten years of study, Chinese pastors go out to convert their own people. The Chinese have recently, of their own accord, sent a missionary to a remote walled city in the south of this province, seven days journey away from the Yangtze river.

Some Chinese are able to go abroad to get their knowledge of foreign things, but most of them have to turn to the mission schools and colleges. The government sought to supply the demand and engaged foreign teachers for the state university. In these cash compensations were granted students for attending but politics and corruption and lack of discipline prevented them from being as efficient as what the missionaries offer.

The Wuchang Government University, across the Yangtze from here, should be one of the great centers of teaching in this country, but having no money, it has been unable since the revolution to pay a foreign staff, consequently the Chinese of this district go to Boone University, the American institution here, which has over three hundred students.

BALDWIN WINS FROM

GORMAN AT DES MOINES

Fighting every inch of the way, although he bled profusely from a half a dozen wounds in the face, Jack Gorman, featherweight, and idol of the fans at Tommy Ryan's gym, Friday night took his first defeat before a local audience from Young Baldwin of Jacksonville, Ill., an unknown.

Baldwin displayed cleverness at fighting, swinging a right hook around and under both his and Gorman's guard repeatedly. Each twist of the russet glove brought a crimson spurt from Gorman's face, and the Omaha brawler seemed unable to fathom the punch, running into it again and again.

Baldwin substituted for Jack Quigg who was to have gone the eight sessions with Gorman.

The popular decision gave the mangle to Baldwin, although Gorman was cheered strongly for his gameness.

Bob Martin, of Des Moines, and Ray McDonald of Kansas City, performed for three rounds, McDonald winning by a narrow shade. He feared to force the fighting, pecking Martin when the latter closed at him.

A wrestling contest, a battle royal and a bout between two negroes in which one received punishment enough to make him quit at the end of the third round were other events of the bill.—Des Moines American.

GOVERNORS MEET IN ST. LOUIS

St. Louis, April 28.—Plans to make the Mississippi valley "the greatest and richest unit of population the world has ever known" were discussed here today at the conference of the governors of states bordering on the Mississippi river. The conference met in response to a call of Governor Eberhart of Minnesota. Drainage, the conservation of water powers, and the improvement of river navigation were the principal subjects discussed.

POOR BLOOD

Cause of Disease.—Druggist Tells of Best Remedy For It.

Pure healthy blood is a most essential factor to good health.

Poor, thin, devitalized blood may be caused by a weakness of the digestive organs, an accumulation of waste matter in the system, an inactive liver or lack of exercise.

Whatever the cause the best remedy we know is our delicious cod liver and iron tonic, Vinol. It will purify and enrich the blood, tone up the digestive organs, give you a hearty appetite.

A case has just come to our attention from Gulfport, Miss. Mrs. Arnelise Saucier says: "For months I was in a run-down condition and my blood was very poor. I had taken several medicines prescribed by physicians but they seemed to do me no good. Vinol was recommended and from the first bottle I noticed an improvement. I continued its use and now feel as strong and well as ever."

If you have the slightest indication of poor blood take Vinol. If it fails to help you we will give back your money.—See P. Allcott, Druggist, Jacksonville, Ill.

P. S. Ezemza Sufferers! We guarantee our new skin remedy, Saxo.

SOME OFF-SIDE CHUTES.

Hylo Jasper, who has many friends in Jacksonville, gives promise of being a second Ed Walsh. Comiskey, Callahan and Bill Gleason are so certain of his ability that they are going to adapt about the same method in his development as was used with the Big Moose. He is not going to be rushed on the job, but by careful grooming he will be nursed along until he acquires a firm grip upon his only weakness—confidence. Hylo has the goods, the best assortment of any "rookie" in the game today. He, however, is like a pampered soubrette—a little bit temperamental. His temperamental stuff is not of the offensive kind, to be found in Ty Cobb, Hal Chase, et al.; it affects nobody but Jasper, and consists of a lack of confidence in himself. Callahan and Gleason will overcome that fault, and, with the aid of Ed Walsh and the veteran Billy Sullivan, Jasper is destined to become one of the greatest mound stars the game ever has known. Walsh is credited with saying that Hylo has the best spitter ever spilled across the rubber; it has a break like a squad of federals (Mex.) fleeing before a rain of reconcentration bullets. It is said Walsh does not tire in his efforts to coach Jasper into the kingdom the Big Moose once ruled supreme.

Brooklyn's Federal team is slap, bang up against real war. And that war is not being waged by organized baseball, but by organized labor. Tre vardy, who guaranteed the pay checks for the team from Gowanus canal, are the owners of a big biscuit and bread foundry in New York in which non-union labor only is employed. According to the Associated Press all efforts of New York's Central Labor union to unionize the plant have met with rebuffs by the millionaire "outlaw" magnates, hence a stiff boycott has been launched against the hill-top Feds in every city on the circuit. The boycott had its initiation at St. Louis on Monday, when the Central Trades and Labor union warned all trades unions to remain away from all games in which the Brooklynites took part unless they, the unionists, wished to separate themselves from their money in the shape of heavy fines. The war will be short lived; the wards will settle, and the dough in the bread factory will be kneaded by union help—for a time, at least.

Within the next few days there will be many changes in the American league pennant standing. The White Sox will have a stiff pace to negotiate with Detroit, while the Naps, who are beginning to round into form, should have easy sailing against St. Louis. In the east the fight will be worth while, with the Red Sox against the Yanks in New York, and Washington hooked up with Connie Mack's champions at Philadelphia.

The Federals have failed in their efforts to have that injunction dissolved. "Big Chief" Johnson will have to remain on the ground at least another week until a renewed effort to dissolve the embargo has been argued before Judge Foeil in Chicago next Tuesday.

The Southern Michigan league opens its season today. This baby organization is a haven for some old-time stars, such as "Topsy" Hartsell, Ed Smith and Harry Arndt.

Ad Wolgast sidestepped his engagement with Danny McRea scheduled for last night. Alibi: "A badly wrenched left mitt."

Milwaukee sporting writers in writing of "Gunboat" Smith describe him as a native son of California. The Heffernans and the Haggartys of Germantown, a suburb of Philadelphia, will jab themselves with pointed steel to discover evidence of life when they read that California has claimed the honor of producing the "foremost white hope."

Mr. Meneke has committed another blunder anent an old-timer. In writing of Mike Donovan's retirement as boxing instructor for a New York athletic club, he says: "The veteran has been in the public eye about 35 years." If readers of the Journal will turn over the files and stop at the issue of this paper on Sunday, Sept. 7, 1913, upon page 7, under the caption, "Cat-tle Killing Contests Not Brutal but Interesting Events," they will find a brief history of Mike Donovan's career, and that history goes back over 44 years.

Nick Cullop, he of the long, slender neck, erstwhile southpaw with Cleveland, has been released to the Cleveland American association team, which is a farm for the Naps.

Visiting Federal teams at Kansas City were ordered by their captains to take all kinds of liberties on the paths when Ted Easterly was wearing the mask for the Kawfeds. When Ted was in the American league he was easy picking for baserunners. Hence the order at K. C. But outlaw players are different from American league stars, and it is recorded that attempts to burglarize the ungrateful Ted met with swift death, with the burglars nipped them off first, ditched them at second and third, and also actually blocked runners at the plate. All of which, if true, gives one a fair line on the stuff used in building up the Federal league.

MOTHER TONGUES OF WHITE STOCK IN STATE OF ILLINOIS

Census Bureau Has Recently Published Some Interesting Facts About the Nationalities Represented in the State.

The German group was the largest among the 2,926,407 persons of foreign white stock in Illinois in 1910, who represented 53 per cent of the total white population of that state, according to the mother tongue bulletin which has been issued recently by Director William J. Harris, of the Bureau of the Census, Department of Commerce. By mother tongue is meant the native language, or that spoken before immigration, and the report covers all white persons of foreign stock, including the foreign born and also the natives, one or both of whose parents were foreign born. As thus reported, the total foreign white stock whose mother tongue was German numbered 981,956. This number represented 18 per cent of the total white population of Illinois, which was 5,526,962. The English and Celtic (including Irish, Scotch, or Welsh) group numbered 636,146, or 12 per cent; the Polish, 274,631, or 5 per cent; the Swedish, 236,922, or 4 per cent; the Bohemian and Moravian, 124,225, or 2.2 per cent; the Italian, 119,132, or 2.2 per cent; the Yiddish and Hebrew, 117,153, or 2.1 per cent; the Norwegian, 71,208, or 1.3 per cent; and the French 55,837, or 1 per cent. The number of persons in Illinois of foreign white stock reporting other principal mother tongues were Lithuanian and Lettish, 45,429; Danish, 38,305; Dutch and Frisian, 34,412; Slovak, 20,915; Magyar, 19,795; Slovenian, 16,713; Serbo-Croatian, 16,151; Greek, 11,831; and Flemish 10,525.

In Chicago.

In the city of Chicago the German group of foreign white stock numbered 461,981, or 22 per cent of the total white population, which was 2,139,057. Those reporting English and Celtic (including Irish, Scotch, or Welsh) as their mother tongue numbered 368,651, or 17 per cent. Those reporting Polish numbered 230,132, or 11 per cent; Swedish, 120,615, or 5.6 per cent; Yiddish and Hebrew, 111,098, or 5.2 per cent; Bohemian and Moravian, 110,736, or 5 per cent; Italian, 75,929, or 3.5 per cent; Norwegian, 49,414, or 2 per cent; Lithuanian and Lettish, 26,355, or 1.2 per cent; French, 24,718, or 1.1 per cent; and Danish, 23,893, or 1.1 per cent. The number of persons in Chicago of foreign white stock reporting their principal mother tongues were Dutch and Frisian, 21,208; Magyar, 13,253; Slovak, 13,093; Serbo-Croatian, 10,083; Greek, 7,795; Slovenian, 6,334; and Russian, 2,906. The total foreign white stock in Chicago numbered 1,693,918 and represented 79 per cent of the total white population.

BUSINESS CONDITIONS NOT SATISFACTORY IN LOS ANGELES

Jacksonville Man Tells About Many Vacant Buildings There—No Future in Fruit Now

It may truly be said now of California that "all is not gold that glitters." For a long time southern California has been the Mecca for winter tourists and the time has been when in Los Angeles on one long street recently a man counted 174 empty stores or business places. A grower of oranges out there said that after paying expenses of marketing the fruit the oranges only produced 20 cents a box for the grower. This state of things is true all up and down the coast. Away up in Oregon where such fine apples are grown a farmer or fruit grower recently remarked that marketing expenses left the producer only 12 cents a bushel for his apples.

In the vicinity of San Francisco and Sacramento the majority of the farms or ranches are for sale. Orange growers have to compete with Florida and foreign fruit and the result is well nigh disastrous. They say the only money made in orange orchards is by the sale of them. Men who own lots in Los Angeles can't sell them at all for anything near what they paid for them.

Hosts of people of all classes are out of work. Mechanics are not in demand for there is little building. The fact is, there have been so many attractions out there in the way of climate and the like and so many have rushed to the coast that Los Angeles and many other places have made a phenomenal growth, and enormous fortunes have been built up. One real estate dealer in Los Angeles bought some real estate at Long Beach for \$150 and after a time sold it for \$450, congratulating himself on his shrewdness, but in a comparatively few years that same real estate was worth \$35,000. Naturally such advances stimulate immigration and over stimulate it and the inevitable hard times must follow. Cities have been started in a manner sufficient to discount the future 25 years. Hosts of eastern people have gone out there and invested unwisely in their sorrow.

We Keep Your Suit New!

The man who does not have his clothes dry cleaned and pressed frequently,—does not get the full wear out of them.

Long before the clothes are worn out the lapels droop over, the coat front breaks, the sleeves wrinkle and pull out at the elbow, the trousers become baggy and lose their shape at the bottom, and the entire suit looks old and disreputable.

Our service keeps them clean and fresh, keeps them shaped right and fitting perfectly until they wear out. It's not only an aid to good dressing—but a real economy, as well.

Take advantage of it frequently.

Chicago Live Stock Market.
Chicago, April 27.—Oliver S.

Don't believe receipts will be very
heavy the balance of the week, but
the same time look for lower va-
lues as the buying interests are all
very bearish. Yours truly,

FRENCH REMEDY FOR STOMACH TROUBLES

The leading doctors of France have for years used a prescription of vegetable oils for chronic stomach trouble and constipation that acts like a charm. One dose will convince you. Severe cases of years' standing are often greatly benefited within 24 hours. So many people are getting surprising results that we feel all persons suffering from constipation, lower bowel, liver and stomach troubles should try May's Wonderful Stomach Remedy. It is now sold here at Armstrong's Drug Store.—adv.

SCHOOLS AND THE SUMMER VACATION.

While denying extreme statements attributed to him, Dr. P. P. Claxton, United States commissioner of education, today reiterated his belief in continued school activities of some kind in summer months for most children.
"The school should provide some kind of instruction for the children through what is now, in most cities, a long, wasteful vacation," declares Dr. Claxton. He points out that school takes at most 900 hours a year out of 5,110 waking hours—assuming 10 hours of sleep for children every night the average child spends about 600 hours in school and the remaining 4,510 waking hours out of school. Dr. Claxton suggests that summer work last not longer than four hours—from 7 or 8 o'clock to 11 or 12 o'clock in the forenoon.
According to Dr. Claxton the school of the future, both in summer and winter, will give less time to intensive school study of the ordinary type—probably about 3 hours; and 4 or 5 hours to productive work supervised by the school, done in shops, outdoor gardens, or in the home.
"With this kind of an organization," he declares, "it would be very easy for children to do ordinary school work 3 hours a day, 6 days in the week, through 11 calendar months in the year, and at the same time contribute largely to their own support by well directed productive educational work, either at home or in the school, thus making it possible for the great majority of children to remain in school throughout the high school period."
"The cost of adding the three months of school would be comparatively little. There would be no cost for fuel, the cost of attendance for most teachers the additional cost for teachers would not be in proportion to the number of days added. Whatever may be the terms of the contract, the teachers are in fact employed by the year. Comparatively few of them use the vacation months in any profitable way. An average addition of \$300 to the annual salary of city school teachers would require a total of less than \$10,000,000, or about 3 per cent of the total annual cost of the schools. For most teachers the additional months would not be a hardship, especially if the school days were shortened. Certainly this is true if teachers could be relieved of a large amount of the unnecessary book-keeping, report making, and examination reading with which they are now burdened."

EDUCATORS AT DEVIL'S LAKE. Devil's Lake, N. D., April 28.—The annual convention of the North Dakota County Superintendents' association began here today and will continue in session over tomorrow. The presence on the program of such noted educators as Dr. P. P. Claxton, United States commissioner of education, and the heads of the leading schools and colleges of North Dakota, gives promise of the most profitable meeting in the history of the association.

SENATOR SHERMAN ON THE MEXICAN SITUATION.

Senator L. Y. Sherman recently is discussing the Mexican situation gave his views as follows:
"In any emergency such as the one that just has been presented to me for action," said Senator Sherman, "I shall vote to sustain the hand that wields the sword, and I did so this morning. I leave my politics this side of the Rio Grande."
"I think my colleagues of the republican party were largely animated by political advantage—when they voted, as several of them did against the resolution justifying the president, and as they voted on the amendments that were proposed to the committee resolution. For one, however, I am tired and sick of seeing the lives of American citizens and soldiers sacrificed, or seeing our navy wasted and millions of money expended without return, for the sake of upholding the fake republics of South America."
"For years we have been wasting lives, money and energy in upholding the Monroe doctrine without any compensation whatever. Every act hereafter, following intervention in Latin America ought to have a Platt amendment attached to it. When we get through in Mexico, that nation, as all others in which we are forced to deal in conformity with the Monroe doctrine, ought to be treated like the loser in a lawsuit—it ought to be compelled to pay the cost."
"We ought to compel Mexico to compensate us for all it costs us to set things right there. We are compelled to act because it is our obligation to police the western hemisphere or else repudiate a part of the Monroe doctrine."
"I am out of patience with the view that we should perform this police duty gratis, thereby keeping added burdens on our own taxpayers. When we get through in Mexico we ought to negotiate a treaty similar to that in Cuba, which will prevent the neighboring nation from incurring any national debt without our approval."
"This is war. We are in Mexico and we must stay until we have conquered the Mexican people by the sword. It is pacification through force of arms. After that we have got to stay until the Mexicans have established a stable government. This is no war against the Mexican people, no matter how you look at it. And I will oppose getting out until we are repaid or have promise of recompense for our expenditure of resources."

JOHN D. JR. DEFENDS HIS POSITION IN MINE STRIKE IN COLORADO

(Continued From Page One.)

what I said in my examination before the committee on mines and mining in Washington a few weeks ago—that we regarded this as a matter of principle, which could not be arbitrated.

"In reply to his request for some suggestion as to how the strike could be terminated we said to Dr. Foster that if the president would make a public statement that the federal troops were being sent to Colorado for the purpose of enforcing obedience to the law and securing to every citizen the right guaranteed to him by the constitution to be protected in his life and liberty, where he chooses to work as a member of a union or not it would go far to terminate the deplorable conditions which now exist.

"The effort has been made to place the responsibility for the continuation of this strike upon us as individual owners of stock in one or the mining companies involved. As outlined above, in our talk with Dr. Foster, the record of the Colorado Fuel & Iron company in providing for its employees, long before the strike the very things for which the union is ostensibly contending, should make it clear that the only point at issue so far as the Colorado Fuel & Iron company is concerned, is that of unionizing and nonunionizing at the behest, not of employees, less than ten per cent of whom were union men, but all the demands of an outside body. This as I have said is a matter of principle to what we could not accede or arbitrate.

"We do not question the right of any workman to freely associate themselves in unions for the furtherance of their common and legitimate interests, but we do assert the equal right of an individual to work independently of a union if he so elects. We are contending against the right of unions to impose themselves upon an industry by force, by assault and murder, and not against the right of men to organize for their mutual benefit.

"The issue is not only of merely local importance. It affects every workingman throughout the land. The fact that labor unions represent but a very small minority of the workers of the entire country seems to be lost sight of by those who urge the termination of this local difficulty at the price of surrender to union domination. Surely no thinking man can ask much less except that we will abandon our own employees and the cause of the workers of the entire country because violence and wholesale slaughter are brought about by an element which has come to regard itself as above and beyond the reach of the law.

"Are the labor unions, representing a small minority of the workers of the country, to be sustained in their disregard of the right of every American citizen to work without interference whether he be a union or non-union man? Surely the vast majority of American citizens will, without fear or favor stand for evenhanded justice under the constitution and equal rights for every citizen. But there is a final aspect of this grave matter which deserves more than all else the attention of the American public in this crisis: whether the Colorado Fuel & Iron company and the other operators have been wholly free from blame or not in the present controversy the issue now to be decided is whether the state, or failing the state, the nation, shall make good the constitutional guarantee of law and order. At the present moment in Colorado funds are being openly raised and citizens are being armed with the avowed purpose of resisting the authorities of the state. Since that issue of resistance to constitutionality is raised, it is unthinkable that the Colorado Fuel & Iron company or any of the companies operating in the state should be asked to yield its position on a preliminary and now extraneous matter of dispute, as the price of securing the withdrawal of forces armed to combat their own government."

ed authority is raised, it is unthinkable that the Colorado Fuel & Iron company or any of the companies operating in the state should be asked to yield its position on a preliminary and now extraneous matter of dispute, as the price of securing the withdrawal of forces armed to combat their own government."

Sends Federal Soldiers.

Washington, April 28.—President Wilson today extended the protecting arm of the federal government to the state of Colorado. Torn asunder by riots and pitched battles between strike breakers and striking miners, Governor Ammons found the state militia unable to cope with the situation and asked for help. The Colorado delegation in congress, the mine owners and miners themselves joined in the request. It was one of the rare occurrences in American history when a state found itself impotent to assert itself authority, but the president in a telegram to the Colorado governor, expressly stipulated that the federal troops would confine themselves to maintaining order only "until the state can re-assert its authority and resume the enforcement thereof."

The president issued a proclamation ordering all persons engaged in domestic violence to disperse and retire "peaceably to their abodes" before April 30th. Secretary Garrison after a conference with the president ordered three troops of the fifth cavalry from Fort Leavenworth and two troops of the twelfth cavalry from Fort D. A. Russell, Wyoming, to Trinidad and Canon City, respectively.

Colorado members of congress say the mere presence of federal troops will restore normal conditions and prevent rioting. Efforts of the federal government to settle the strike thus far have failed. On this point the president made it clear that federal troops were being sent merely to preserve order and not to interfere in the strike controversy itself.

"I shall not, by the use of the troops," wired the president to Governor Ammons today, "or by any attempt at jurisdiction inject the power of the federal government into the controversy which has produced the present situation. The settlement of that controversy falls strictly within the field of state power."

The president asked that the militia be temporarily withdrawn until the legislature, which is to meet next Monday, considers the situation and arranges for it to resume its police duties in the state.

The Colorado situation was brought to the attention of congress again by Representative Bryan of Washington, introducing a bill declaring that a state of anarchy and insurrection against the United States exists in the state and directing the president as commander-in-chief of the army, use the federal troops to restore order and that he acquire control of the stocks in mining companies affected. The measure would appropriate \$10,000,000.

Fighting at Hecla Mine.

Boulder, Colo., April 28.—One dead and two slightly wounded were the known casualties in the fighting at the Hecla mine at Louisville which began last night and continued today with a brief truce this afternoon, according to advices here tonight. Peter Steinhoff, a Bulgarian, employed at the Hecla mine was shot through the head. From 9 last night until 11 a. m. today twelve women and many children were within the mine enclosure, most of them in the mine. One Italian woman told the county commissioners today that she and her children lay on the floor of their home during the fourteen hours afraid to move. During the truce all the women and children together with the men working in the mines were removed to Boulder and Denver leaving only the mine guards at the property.

That the strikers were entrenched on every hill around the Hecla mine prepared for a renewal of the attack was the word brought here late today by M. M. Rinn, attorney for the mine owners.

During the truce Sheriff Buster and Deputy District Attorney H. D. Martin left the mine enclosure and late today were in conference with John R. Lawson, John McLennon, union officials, and T. A. Mollarg, union attorney at Louisville.

Sheriff Buster planned to return here to take charge of the citizens' volunteers organized today. The train carrying General John Chase and 120 militiamen, which left Denver at 4 o'clock was reported to have stopped at Webb, two miles from Louisville and it was said a strong force of strikers were moving in that direction.

WILL SEEK AID OF BUSINESS MEN IN LOWER RATE FIGHT

Transportation Committee of Chamber of Commerce Completes Data to Show Savings Which Revised Rates Would Bring.—Springfield Basis is Desired.

A meeting of the traffic committee of the Chamber of Commerce was held last night in the rooms of the association to discuss the advisability of joining Springfield in a case to be presented to the Interstate Commerce Commission at Washington for a reduction in the freight rates to Jacksonville.

J. L. Bowlin, Springfield traffic representative, appeared before the committee to explain the advantages to be derived from a case of this kind.

The main object of the case would be to get a reduction in rates lowering them to the same basis as existing by Peoria and Decatur. Several thousand dollars per year would be saved the various business men and Jacksonville would be placed on the same competitive basis of rates as other central Illinois cities. The effort made the past year to get Springfield rates to the same basis as those charged for Peoria was not wholly successful but reductions were secured which mean a saving to Springfield of \$100,000 per year. It is the intention to continue the fight before the Interstate Commerce Commission with the expectation that eventually Springfield and Peoria will be on an equal freight basis. The rates desired affect shipments from and to the east particularly.

The local transportation committee recently sent out letters to about sixty firms asking them for some data as to the amount of freight they receive from outside the state or shipments they make. From these replies by comparison with Springfield figures it was possible at the conference held last night to show some of the savings which could be effected here if Jacksonville were placed on the same freight basis with Springfield. For one concern now shipping from the east the savings would be from \$100 to \$140 per month. Another concern could save an average of \$900 on the shipments it is receiving from Ohio and Pennsylvania. The hard coal rate into Springfield since April 15th as a result of the concessions secured by the Chamber of Commerce fight there is fifteen cents per ton. This means \$4.50 to \$5.00 for the average car. It is very probable that Springfield receives 500 cars a year and on this item alone there would be a saving of \$2000 to \$2500 a year.

The lower rates would be beneficial not only for car lot shipments but also for broken lots and so practically every merchant would be benefited. The transportation committee decided last night after looking over the schedules returned and comparing them with some of the

figures determined to see the business men of Jacksonville speedily and explain what it is believed can be done by a united effort along with Springfield.

GIVES ILLUSTRATED TALK ON THE ELECTRA OF SOPHOCLES

Interesting Address on Greek Tragedy Delivered at Public Library by Prof. Rollin H. Tanner, of the Classical Department at I. C.

A talk on the Electra of Sophocles, illustrated by a series of excellent lantern slides, was given last evening by Professor Rollin H. Tanner, at the public library. This talk was preliminary to an out-door presentation of the play, which is to be given in the late afternoon of May 19th, by the students of Illinois college and Illinois Woman's college under the auspices of The Classical Club.

The story of the Electra is as follows: At the time of the death of Agamemnon at the hands of his wife Clytemnestra and her paramour Aegistheus, they also tried to kill the young son Orestes. But he was stolen away by his sister Electra and sent to Phocis in the care of a faithful old servant of the family to be brought up at the court of King Strophius. Now that he has come to manhood, Orestes returns with the trusted servant and his bosom friend of Pythia, and under the direction of the oracle of Apollo, to take vengeance for the death of his father. The play tells how he plans to gain admittance to the palace by a false report of the death of Orestes, how Electra and Clytemnestra each receive this news, how he discloses himself to Electra, and how the vengeance is finally planned and executed, and Electra freed from impending destruction.

This was the last of the Tuesday evening series of literary entertainments at the public library. The series was planned and conducted under the direction of Miss Lorena N. Weber and continued under the supervision of Miss Barrette, after Miss Weber's resignation. The entertainments have been for the most part well attended and have reflected much credit upon the library management.

RECEPTION FOR REV. MR. DARSIE AT CENTRAL CHRISTIAN CHURCH

Farewell for Pastor and Family Attended by Hundreds on Eve of Departure for Mt. Sterling, Ky. Receive Many Valuable Presents.

In honor of Rev. Clyde Darsie and family, who are to leave today for their new home in Mt. Sterling, Ky., the members of Central Christian church gave a farewell reception Tuesday evening in the parlors of the church. Members of the congregation and friends from other churches to the number of several hundred were present, the ministers of Jacksonville being included among the guests at this reception, which was one of the largest ever held in the new church building. The pastor and his family were the recipients of a number of handsome presents in token of the high regard with which they are held throughout the city.

Among the remembrances were a solid gold watch for the pastor, a forty-five piece sterling silver set for Mrs. Darsie and two and one-half dollar gold coins for each of their children. The departing minister and his wife were remembered also by gifts of gold coin. Accompanying the presents was a handsome leather address book in which were inscribed the names of those who had made contribution toward the gifts. The presentation speech was made by Clarence L. De Pew and appropriate response was made by Rev. Mr. Darsie and by Mrs. Darsie.

Spring flowers and the national colors composed the decorations. Refreshments were served the guests toward the close of the evening by members of the Young People's Society of Christian Endeavor and a number of appropriate selections were given by the Central Christian Sunday School orchestra. The affair as a whole was most pleasurable and the regrets expressed at the pastor's departure were highly expressive of the warm regard he has won during his two and one-half years as minister of the church here.

Rev. and Mrs. Darsie and their children, Robert, Ruth, John, George, Virginia and Charles David, will leave for Mt. Sterling by way of St. Louis at 3:55 o'clock this afternoon over the Chicago & Alton. Rev. Mr. Darsie will begin his work next Sunday as pastor of the Christian church at Mt. Sterling, reputed to be the most prosperous Christian church in the Kentucky Blue Grass region. The church at Mt. Sterling ranks among the four largest in the state in point of Sunday school attendance and has the largest adult Bible classes in Kentucky.

Rev. Mr. Darsie handed in his resignation as minister of Central Christian church April 5 and April 12 the following set of resolutions were adopted at a special meeting of the congregation:

The Resolutions.
Whereas, Our beloved pastor, Mr. Clyde Darsie, has presented his resignation as pastor of Central Christian church, having accepted a call from another church;

Resolved, That we accept the resignation of Brother Darsie with deep regret and beg to express our sincere appreciation of his earnest work during his pastorate with us; be it further

Resolved, That inasmuch as Brother Darsie has expressed the desire to terminate his work here and take it up in his new field on May 1, 1914, we hereby accept his resignation to take effect on April 30, 1914.

Resolved further, That the clerk of the church be instructed to notify the Christian church at Mt. Sterling, Ky., of the action taken here by sending a copy of this resolution accompanied by a suitable reply to their communication requesting us to release Brother Darsie on May 1, 1914.

COMMENCING THIS MORNING EVERY WOOL SUIT FOR LADIES AND MISSES WILL BE REDUCED IN PRICE 25 PER CENT. COME EARLY AND GET YOUR SIZE AND COLOR.

200 MINERS ENTOMBED IN BURNING MINES AS RESULT OF GAS EXPLOSION

(Continued from Page One.)

by means of it the rescues were made. Number five mine apparently is completely shut off from the surface and rescuers hold little hope of reaching the large number of men in time. The explosion occurred in Mine No. 5. The two shafts of this mine were demolished. It is believed the explosion traveled through this mine into No. 6.

One shaft of the latter mine was wrecked but the other remains intact and was the salvation of at least fifty-nine of the workmen.

This little mining community of 1500 people was shaken by the muffled rumbling of the explosion which brought women from their cottages in a panic and started the entire population not at work to the tips of the ill-fated mines.

Sixty-three Brought Up.
Superintendent Thomas Donaldson of Mine No. 3, another operator of the company, local Superintendent M. E. Kerr and General Supt. F. B. Bayles of the New River Collieries company were at the scene of the disaster within a short time. Superintendent Donaldson, an experienced miner with an expert rescue crew, were lowered down the shaft of number six. For a time the steadily growing crowd of anxious women and children waited in suspense but soon the signal was given and the cage came up. It carried two men badly hurt, a few of the rescue party and two bodies. Other trips were made as rapidly as possible and each time blackened and burned miners were brought to the surface until sixty three men had been brought up, four of whom were dead. The injured were assisted to nearby houses where physicians cared for them. The rescued men expressed doubt that any of the thirteen miners still in No. 6 shaft would be taken out alive. Some of the men stated that portions of No. 5 were badly wrecked and they believed that the entrance connecting with this mine had been completely destroyed.

Of the bodies recovered one was an American.

A large portion of the miners employed are Americans. A United States government rescue car reached the mines from Bluefield, W. Va., and another will arrive here from Pittsburgh, Pa., at noon tomorrow. The New River Collieries company is connected with the Juggenheim interests.

The combined efforts of rescuers tonight were directed to Mine No. 5, where the 190 men are entombed. Rescuers were unable to make much progress because of the intense heat and gases.

Makes Task Less Difficult.
At 10 o'clock tonight rescuers had installed new fans and made an air circuit making the task of boring into No. 5 less difficult. The New River Collieries tonight ordered two carloads of coffins and they are expected here early tomorrow from Cincinnati.

MEXICAN CRISIS CENTERING ON ISSUE BETWEEN TWO BRANCHES OF ACTIVITY

(Continued from Page One.)

guard of rebels which entered Piedras Negras today numbered ten men. They rode to the bridge and halted, the exodus of refugees, announcing that all property and citizens would be protected.

Small detachments of federal soldiers crossed to the United States today for protection. Twenty-five federal, including several officers, are detained in the seventeenth infantry camp. Other detachments have been captured by the cavalry border patrol. General Murguia did not execute any of the federal soldiers captured at Alende. He said he had no interest in Huerta's quarrel with the United States and declared all Americans in his district would be protected.

U. S. CIVIL GOVERNMENT SET UP IN VERA CRUZ

Attorney Robert J. Kerr of Chicago Is Appointed Civil Governor—An Expert on Mexican Law.

Washington, April 28.—American civil government under martial law was set up in Vera Cruz at 5 p. m. today, with Robert J. Kerr, lawyer of Chicago and Mexico City as civil governor.

Specialized on Mexican Law.
Chicago, April 28.—Robert Joseph Kerr, appointed civil governor of Vera Cruz was admitted to the Illinois bar in 1895 and specialized on Mexican law. During the last several years much of his time has been spent in Mexico City. He is the author of a handbook of Mexican law and mining law in Mexico.

Mr. Kerr left Chicago April 6th for Frontera, Mexico, and was on his way to Vera Cruz when the passengers of the Mexican steamer were transferred to the American gunboat Arkansas. He remained in Vera Cruz harbor on board the Arkansas and was requested by Admiral Fletcher to draw up a scheme for the civil government of the city. Mr. Kerr had many friends and business connections in Vera Cruz and it was thought his appointment would be acceptable to Mexicans.

Rear Admiral Fletcher cabled the navy department tonight that this step had been taken following a conference between Brigadier Funston and himself.

Mexicans Will Stand by Huerta

ROME, April 28.—The Giornale de Italia today prints an interview with Senor Esteva, the Mexican minister to Italy, who is quoted as saying that if the United States makes as a condition of his settlement of the difficulty with Mexico the retirement of President Huerta the Mexicans would rather die than acquiesce.
